

Beautiful, versatile, sustainable western red cedar

Western Red Cedar has unique, natural performance characteristics and exceptional beauty that bring warmth, character and longevity to homes and commercial buildings around the world. It is this bundle of properties that has made "Cedar" the choice of discerning architects, builders and homeowners in North America and around the world.

Western Red Cedar is renowned for its naturally occurring resistance to moisture, decay and insect damage. Its natural durability, dimensional stability and exceptional beauty make it ideal for a wide variety of exterior and interior uses. Western Red Cedar offers enormous versatility in styles and applications. Equally important, it has a low environmental impact relative to other building materials. Western Red Cedar is harvested legally and sustainably from independently certified forests in British Columbia.

Enhance the beauty of your next project, build with Western Red Cedar. For more information and suppliers near you, please visit our website.
